Newark Electronics
Mr. Daniel Weiss
4801 N. Ravenswood Ave.
Chicago, IL 60640

Dear Danny,

In an effort to align globally, it was necessary to change the push button color from black to green on some XALD catalog numbers. This change will take place gradually as the present inventory of control stations is depleted. It is still possible to build a custom XALD control station by buying an empty control station, plastic push button with contact blocks.

The following catalog numbers are the only units affected by this alignment:

XALD101H29H7
XALD211H29H7
XALD251H29H7
XALD311H29H7
XALD321H29H7
XALD351H29H7

OLD Button Color

NEW Button Color

Please bear with us as we make these changes. We apologize for any inconvenience this may cause.

Sincerely,

Jannet Bondarowicz
