Technical Data

Issue 06 February 2000

General description

A thin PVC film, coated with a low tack UV resistant adhesive.

- Flame retardant.
- Easy unwind.
- Flexible.
- Conformable to awkward shapes.
- Water resistant.
- Good abrasion resistance.
- UV resistant.
- Non-corrosive adhesive.
- Low tack.
- Clean peel.

Technical Details

Typical values

Thickness 0.13mm

Breaking Load 23 N/cm

Elongation 150%

Adhesion

Steel 0.30 N/cm

Service Temp 0° C to $+60^{\circ}$ C

Application Temp 0° C to $+40^{\circ}$ C

AT44 Low Tack Protection Tape

NOTE

Except where indicated otherwise, the above figures are average values and should not be regarded as MAXIMUM or MINIMUM values for specification purposes. The Company reserves the right to improve products and any change in specification will result in a re-issue of the relevant 'Technical Data Sheet'. Customers should satisfy themselves that the tape is suitable for their requirements whether after such modifications or otherwise. Please check that you have the latest issue of the 'Technical Data Sheet'. All slitting and length tolerances are to British Standards. Before use the customer is advised to consult the Health & Safety Data Sheet produced by the company for this product, which is available on request.

STORAGE

Tapes stored below the minimum recommended temperature will require warming up to that level before use. Up to 24 hours may be required for this to take place.
