DeoxIT® Gold GN5 Spray, G-Series
Contact Cleaner, Enhancer & Protector

1. Part No.:
   GN5S-6N & K-GN5S-6N (with stainless steel extension tube)

2. Container Size:
   163 g (5.75 oz.)

3. Product Description:
   Unique contact cleaner, conditioner, enhancer, lubricant and protectant for PLATED metal surfaces. Improves conductivity, maintains optimum signal quality, reduces fretting & dendrite corrosion, and stabilizes connections between similar and dissimilar metals. Molecularly bonds to both base-metals and plated surfaces and seals out oxygen, protecting both surfaces. The DeoxIT® Gold coating is excellent at reducing wear abrasion, arcing, RFI and intermittent connections and improves connector performance/reliability. Ideal for gold plated surfaces. On oxidized surfaces, pre-treat with DeoxIT® D-Series contact cleaner. Temperature range: -45 to +240°C.

4. Features/Benefits:
   5% Spray, Quick dry solvent, Non-drip, Safe on most plastics.
   DeoxIT® Gold G100L concentrate has approximately 0.5% chemical cleaning action. Excellent conductivity enhancing, excellent protection, minimum cleaning/deoxidizing, no ozone depletion. Prevents dendrite and fretting corrosion. Protects base metals. Reduces intermittent connections, arcing, RFI, wear and abrasion. Ideal for both stationary and moving (vibration) connections.
   Cleaner Audio - Clearer Video - Reliable Data.

5. Formulation:

6. Which DeoxIT® product do I Use:
   - Use DeoxIT® D-Series contact cleaner on surfaces that have been in service or have visual signs of oxidation. Contains 20% active cleaner.
   - Use DeoxIT® Gold G-Series conditioner on new surfaces, and gold plated surfaces. Ideal for preventing dendrite/fretting corrosion. Protects both surface and base metals. Ideal for critical applications. Contains >1% active cleaner.
   - Use DeoxIT® Shield S-Series to protect surfaces from severe environments (humidity, salts, pollutants, sulfur, etc.). Use on clean surface. Contains 0% active cleaner.

CAIG LABORATORIES, INC.
Performance Products, Since 1956
7. Directions for Use:

1. Turn off, unplug the device.
2. On surfaces that have been in service or have visual signs of oxidation or corrosion pre-treat with DeoxIT® D-Series (DN5S-6N) contact cleaner (see Data Sheet DS-DN5S-6N).
3. Next, adjust valve (L-M-H). Apply one short burst of DeoxIT® Gold G-Series contact enhancer to contact/connector surface.
4. Operate the part/device to help distribute the DeoxIT® Gold and break up minor amounts of oxides and contamination. Wait a few seconds, reapply one short burst. Wait two minutes before turning on equipment. **Test for compatibility before use.**
5. If you notice a green or black coloration on the surface (may take a few days) after applying DeoxIT®, this indicates dissolved oxidation (surface was severely oxidized). Repeat step “2-4” above.
6. **For extended protection:** For **severe environments** (humidity, salts, pollutants, sulfur, outdoor applications, etc.) apply DeoxIT® Shield S-Series after applying DeoxIT® Gold G-Series.
7. **NOTE:** To prevent overspray or spraying in unwanted areas, you can always spray onto a lint-free swab or cloth first and then using the swab/cloth apply the DeoxIT® to the connector/contact surface(s).

8. Other Applicators:

9. Product Selection Guides:
Temperature range: -45 to +240 OC.

Ideal for gold plated surfaces. On oxidized surfaces, pre-treat with DeoxIT® D-Series contact cleaner.

Both surfaces. The DeoxIT® Gold coating is excellent at reducing wear abrasion, maintains optimum signal quality, reduces fretting & dendrite corrosion.

163 g (5.75 oz.)

Contact Cleaner, Enhancer & Protector

DeoxIT® Gold GN5 Spray, G-Series

10-30% ISOBUTANE propellant (75-28-5)

60-90% 1,1,1,3,3-PENTAFLUOROPROPANE (460-73-1)

5% DeoxIT® Gold G100L

5. Formulation:

Moving (vibration) connections. Reduces intermittent connections, arcing, RFI, wear and abrasion. Ideal for both stationary and portable applications, etc. Apply DeoxIT® Shield S-Series after applying DeoxIT® Gold G-Series.

4. Features/Benefits:

DeoxIT® Gold G100L concentrate has approximately 0.5% chemical cleaning action.

DeoxIT® Gold G-Series brings old systems back to life!

DeoxIT® Shield S-Series maintains new system performance for severe environments!

DeoxIT® Fader F-Series - Clean, lubricate & protect conductive plastic and carbon compound faders!

9. Product Selection Guides:

G100L-2DB 100% 0% brush bottle 7.4 mL non-flammable

G100L-2C 100% 0% tube 2 mL non-flammable

G50W 100% 0% wipes 50 count non-flammable

G100L-P6C 100% 0% oiler pen 6 mL non-flammable

G100P 100% 0% pen 6 mL non-flammable

GN5MS-15 5% 75% mini-spray 14 g non-flammable

8. Other Applicators:

Fader F-Series - DeoxIT® contact cleaner on surfaces that have been in service or have visual signs of oxidation. Contains >1% active cleaner. Test for compatibility before use.

DeoxIT® D-Series (DN5S-6N) contact cleaner (see Data Sheet DS-DN5S-6N).

On surfaces that have been in service or have visual signs of oxidation or corrosion pre-treat with DeoxIT® contact cleaner on new surfaces, and gold plated surfaces. Ideal for preventing oxidation. Contains 20% active cleaner. Use DeoxIT® D-Series (DN5S-6N) contact cleaner on surfaces that have been in service or have visual signs of oxidation or corrosion.

DeoxIT® Gold G100L concentrate has approximately 0.5% chemical cleaning action.

Test for compatibility before use.

IMPORTANT:

Rating, 100% DeoxIT®: Any of the above that fall into the “Fair” and “Poor” categories should be thoroughly tested for compatibility. They may be compatible, however, it will depend on the manufacturing process of the materials. Acrylics, ABS, and polycarbonate, if under stress, may show slight cracking or crazing damage. Test for compatibility before use. On porous materials; i.e. wood, rubber, cloth, some phenolics, semi-cured materials, no liquid or solvents should be used. Occasionally, DeoxIT® will get onto unwanted surfaces, quickly wipe off surface and usually no damage will occur.

Rating, with solvents: Similar to rating above (100% DeoxIT®). However, any rating worse than the 100% DeoxIT® may require additional care. If DeoxIT is applied to unwanted areas or materials, wipe off surface quickly and usually no damage will occur. Alternatively, apply DeoxIT® onto a lint-free swab or cloth first and then wipe onto desired metal surface.

10. Materials Compatibility (Plastics, Rubber, Elastomeric and Metals):

(Rating: Not compatible, Poor, Fair, Good, Excellent), (N/A = Not applicable (no solvents and propellants)

(* If the product is not 100% DeoxIT® then the package is rated before and after the solvents/propellants are applied to materials. Compatibility testing is always recommended)
