Application Bundles Offer Big Savings

Get all licensed application software for the 2000, 3000, or 4000 X-Series for one incredibly low price!

Take advantage of a new oscilloscope application bundle that will enable ALL software applications (including DVM and Wavegen) on your InfiniiVision X-Series oscilloscope for a huge discount over buying the options individually.

The Keysight InfiniiVision X-Series oscilloscopes offer entry-level prices with superior performance and integrated capabilities that are not available in any other oscilloscope in this class; giving you the ultimate scope.

Bundle details:

- The application bundles only include options listed in the table on the next page. MSO, bandwidth upgrade licenses, and later-to-be-released options are not included.
- The application bundles can be applied to any existing (already owned) or new purchase InfiniiVision 2000, 3000, or 4000 X-Series (DSO or MSO) oscilloscope.
- All options included in the application bundle will install in one bundled license. There is no need to install each option individually.
- Any existing option that is already installed on the oscilloscope downloading the application bundle will remain enabled.

- Superior visualization of your signal with the fastest waveform update rate and the largest display in this class.
- Ultimate instrument integration with the power of up to 5 integrated instruments: oscilloscope, digital channels (MSO), integrated WaveGen function/arbitrary waveform generator, integrated digital voltmeter, and a serial protocol analyzer.
- Industry-leading investment protection with the industry's first fully upgradable oscilloscope, including bandwidth, so you can purchase what you need today and upgrade it at any point in the future.
