- SPACE SAVING**
Doors turn into twin DJ desks with integral legs

16u

This one has everything a DJ needs - apart from a crowd! Take a wheeled cab with a ratcheted mixer frame, add 16U of 19" rackmount capacity and pack it all with the most shock absorbing waffle foam you can find. Now what else? Add fold out legs to the front and rear doors and you've got two sturdy tables that clip onto the cab that are strong enough for decks, vinyl, desktop mixers - and of course your beer!
