

Details: **Description**

The Game Max Typhoon keyboard can be used in low light or dark condition, thanks to the LED backlight. The 3 colour LED gives the user the ability to select the colour of their choice (Red / Blue / Purple). The multimedia keys allow the user to do common functions (Open My Computer, open Calculator, Play / Pause media, etc) all at the touch of a button. With the additional software included, the user is able to program any standard key on the keyboard to any of the following: Different keystroke, mouse button, macro (series of keystrokes), and also they are able to different profiles, allowing for any number of key / mouse combinations to be used with one simple key press.
