

Description:

This Disposable Heel Grounder is ideal for flooring/footwear personnel grounding of visitors in ESD protected areas. The black conductive strip is bordered by bright yellow colour material providing excellent visibility, assisting in enforcing an ESD control programme. The conductive non-woven nylon strip is held to the heel of the shoe by pressure sensitive adhesive.

To Attach:

1. Strip release paper from pressure sensitive adhesive.
2. Insert the non-adhesive end of the disposable heel grounder inside the shoe under the foot so that the black dot is in the center of the heel area, facing upwards.
3. Wrap the tape snugly around the outside of the shoe so that the adhesive area adheres to the underside of the heel of the shoe.
4. Step firmly onto pressure-sensitive adhesive and tear off excess material at serration.
5. Check for proper ground connection with the Vermason Dual Independent Footwear and Wrist Strap Tester or other tester.
6. One heel grounder should be used on each foot.

Note:

"Alternative grounding method is through the foot and footwear to ESD control flooring or mats. There are a wide variety of footwear grounding devices available." [CLC/TR 61340-5-2 User guide clause 4.7.4 Footwear]

"Heel and toe grounders should be worn on each foot. If worn improperly, heel and toe grounders become ineffective. ... It is important that the conductive ribbon has good electrical contact with the person's body through direct contact with the person's skin or by connection through the person's socks." [CLC/TR 61340-5-2 User guide Footwear clause 4.7.4.2.1 Heel and toe grounders]

Perform daily Compliance Verification using a Vermason Footwear Tester

Electrical Performance:

The tab to cup resistance is 5×10^4 to 8×10^5 ohms per IEC 61340-5-1 Clause A.2.

Item No.	Description	Length
VER-29530	Disposable Heel Grounder, pack of 100	298mm

Caution: The heelgrounder is for ESD control. It will not reduce or increase your risk of receiving electric shock when using or working on electrical equipment.

Material:	Yellow non-woven fibrous material
Conductor:	Carbon black
Width:	14mm
Electrical Resistance Rp-p (end-to-end):	5×10^4 to $< 1 \times 10^6$ ohms

Disposable Heel Grounder Dispenser

Designed to be mounted on a wall. Printed with instructions for use of Disposable Heel Grounder. Treated with antistatic coating.

Size: 315mm x 200mm x 55mm, tray is 105mm deep

VER-27060 - Tray, wall mounted
