

The Kärcher SP3 dirty water pump can help you tackle large volumes of water, moving it from one area to another. The SP3 Dirt can pump 7,000 litres of water and hour, making it very effective. This pump can be used to clean your pond, empty a pool, or to tackle a flooded area. This pump can also tackle clean water if required. The SP3 uses a float switch to automatically turn itself on, if an area starts to flood. This float switch can also be held in place above the pump to clear the last remaining water, however you must monitor the pump when doing so. This SP3 can deal with dirt particles up to 20mm in diameter. It comes with a G1 thread connector. You can use a standard garden hose to pump the water away if required, using a tap adapter to connect the hose to the pump.

SP 3 Dirt
Technical data

Order No.	1.645-512.0	
EAN code	4054278169903	
Max. motor rating	W	350
Max. flow rate	l/h	7000
Delivery head/pressure, max.	m / bar	6 / 0,6
Max. depth of immersion	m	7
Max. grain size	mm	20
Delivery temperature, max.	°C	35
