

# 9104 SERIES/HIGH VOLTAGE SIP REED RELAYS

## 9104 Series Hi Voltage SIP Reed Relays

Molded SIP relays are the industry standard when high reliability and consistent performance are desired in a compact package. The 9104 Series adds high voltage switching capability and high voltage standoff capability to a SIP relay package. These high voltage, high performance relays are ideally suited for Automatic Test Equipment, Instrumentation, and Process Control applications where voltage isolation is a key design requirement.

## 9104 Series Features

- ▶ High voltage switching up to 1000 V
- ▶ High dielectric strength (2000 V DC)
- ▶ High Insulation Resistance –  $10^{11}\Omega$  minimum
- ▶ High reliability, hermetically sealed contacts for long life
- ▶ High speed switching compared to electromechanical relays
- ▶ Molded thermoset body on integral lead frame design
