

Description

Keyboard, mouse and headset all with LED backlight, and to complete the kit a rubber backed large area mouse mat. The laser cut keys on the keyboard allow for prolonged use, with reduction in key label wear. The mouse with the 4 selectable DPI resolutions (800 / 1200 / 1600 / 2000) allows the user to select the precision or speed they require. The headphones with their built in microphone, and LED backlight are ideal for any internet multiplayer gamer.

Key Features

- **LED Backlight** - Full red LED backlight, allowing use in low light conditions
- **Ergonomic design** - The keyboard and mouse have been ergonomically designed to give the user a more natural feel during use.
- **Mouse Optical Sensor** - The avago 5050 optical sensor, giving high performance and tracking
- **User Selectable Mouse Resolution** - With the touch of a button, you are able to select between 4 preset resolutions on-the-fly.
- **LED Lighting On Microphone and Ear Cups** - Red LED illumination on the ear cups and microphone will get you noticed no matter where you are playing. Game in style in daytime or night, the LEDs are vibrant enough to be noticed even in a bright room!
- **Premium Headset Comfort for Long Gaming Session** - With robust, optimised weight and comfortable ergonomic headband design
