

967 SPKL/9 TORX® BO Multicolour L-key set for tamper-proof TORX® screws, BlackLaser

9-piece set in a two-component clip. For recessed screws, it's often advantageous for the screw to be held on the L-key by magnetic force. The Wera clips with magnetiser/demagnetiser enable a magnetisation/demagnetisation of L-keys in a flash.

Application:

TORX® socket screws with and without pin (BO = bore hole)

Design:

BlackLaser, durable plastic sleeve. The contrasting inscriptions on the colour-coded sleeves mean that it is easy to recognise the correct sizes and this makes it simpler to find the right tool.

Tip:

TORX® on short arm, TORX® ball end on long arm
