

# ACL Flux Remover Lead-Free

MPN: 8622

## For high-temperature, lead-free flux removal

Flux Remover Lead-Free is an extra-strength solvent that removes heavy and encrusted flux deposits resulting from high temperature lead-free soldering applications. This powerful cleaner quickly removes all types of flux, oxide particles, carbon, dust, grease, oil, and then evaporates quickly, leaving no residues.

The Flux Remover Lead-Free is suitable to use on printed circuit boards, motors, generators, metal housings, plugs, sockets, relays, contacts, switches, heat sinks, chip carriers, surface mount devices and pads.

## Features:

- Quickly removes all rosin & no-clean flux types
- Removes encrusted, hard, bakes-on fluxes and residues
- Removes oil, grease, ionic, & non-ionic residues
- Cleans & removes R, RA, RMA & all synthetic flux residues
- Non-abrasive, non-corrosive
- Evaporates quickly and leaves no residue
- Ozone safe: contains no CFC's or HCFC's
- Flammable
- Low odour
- 12oz (340g) aerosol can
