Dear Customer,

Please be informed about design change implemented in the female Han® E Protected Module (p/n: 09 14 006 3141). Please see below images detailing this change.

Features and Advantages of the New Design

- New design has a lead-in chamfer that avoids interferences with the male module
- All mechanical and electrical characteristics remained the same compared to the old design. The module is 100% mating compatible.
- The part number remained the same; however, the revision number has changed from 02 to 03.

The above mentioned modification will take place with immediate effect. Mixed shipments can occur for a short period of time.

In case of questions or concerns, please do not hesitate to contact our technical support.
