Hot-Swappable, Dual 2.5" SATA Drive Bay With Power & Data

Need to add a hot-swap, dual 2.5" chassis with the easy of use for a sliding, drawer style for adding or removing the SSD or HDUs?

The newly developed **SSD-HDD2.5** gives extra functionality complete with the benefit of on-line, hot swapping capabilities as is the SATA interface standard.

Fitting into almost any 3.5" drive single drive bay as found in the majority of desktop, gaming and server computers, the high density design allows up to two 2.5" devices to be fitted with ease, courtesy of the sliding design which facilitates the hot-swapping capabilities, so now there is no need for system downtime!

Supplied with standard SATA data and power cables in at a competitive price point, the new **SSD-HD2.5** is your ideal upgrade for when you need more storage, with the added benefit of hot swapping storage technology.

specifications:

Polycarbonate, non-conductive SSD/HDU chassis

Fits up to x2, 2.5" SATA SSDs and/or HDUs

Fits into any standard 3.5" single drive bay

Supplied SATA power and data cables

Enjoy SATA 'hot swapping' zero downtime

Easy, slide-in drawer style design

Ideal for desktops, gaming, servers etc

Retail packaging

Fits most 2.5" devices, if in doubt check with manufacturer first

SSD/HDU not supplied.
For reference only.
