Features

Because there are no notches, Ty-Rap ties provide an infinite number of locking positions while fasten- ing the tie at the precise bundle diameter needed. The No-Slip Tail provides easy grip during tension- ing. Ty-Rap ties feature a unique friction surface de signed to reduce slippage during installation. Smooth, notchless body reduces stress concentra- tion points under tension, making the tie stronger and lower profile than notched body ties. Ribbed and Stippled body grips the bundle and prevents slippage. Rounded edges protect insulation, pre- venting sharp edges from damaging cables.
