

CHANGE YOUR WAY OF CONTROLLING LIGHT AT HOME

With the first wireless gesture control switch,
discover a new way of interacting with your light:

- more intuitive
- more fun
- more functional

Control light at home, like never before, simply at
the touch of a finger.

Install it anywhere : sticker, magnet, screw...
No wires required!

Keep it on the wall or take it with you (on battery).

Control several light bulbs or groups simultaneously
without a smartphone.

Configure gestures easily through the application
(no need for a bridge).

ON/OFF (1 click)

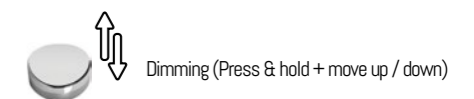

White / color mode (2 clicks)

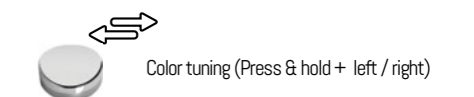

Dimming (Turn)

Night mode (flip/flop)

Dimming (Press & hold + move up / down)

Color tuning (Press & hold + left / right)

Back to Preset color (Shake)
