DIN PLUG CONNECTIONS

- Pin 1 - NOT USED
- Pin 2 - SHIELDS
- Pin 3 - NOT USED
- Pin 4 - WHITE
- Pin 5 - BROWN

Description

The midi cable consists of dual reussen shield, tight twisted pair of conductor wires to Specification No. PS 0007 - GAC-2 (439 Series). The midi specification makes use of three of the possible five pins (see diagram). Pins 4 and 5 are used as conductors for midi data, and Pin 2 is used to connect the cable's shield to equipment ground. Pins 1 and 3 are currently not in use, but are reserved for possible changes in future midi applications. The maximum length specified by the midi specification is 15 metres. Connector Specification No. PS 0487 refers.
