Dual Personality Sync And Charge Solutions

Have multiple devices such as Lightning(tm) and MicroUSB(tm) but want to cut down on the hassle of extra sync and charge cables?

The new LMS Data **C-USB-MI-LIGHT-B/W** (black or white versions) is the ideal solution. Using an innovative Lightning adapter which connects like a cap over the MicroUSB connector, now you have the choice of both worlds!

Perfect for Apple(tm) iPhone(tm), iPad(tm) devices using the latest Lightning adapter. Also ideal for Android(tm) and Windows(tm) devices which use the popular MicroUSB port for sync and charge. Ideal also for other MicroUSB devices such as GPS, cameras, digital pens and more.

Stylish in design, easy to use and comes in a generous 1 metre (approx) cable length, terminated with a standard USB host connector.

specifications:

Innovative 2-in-1 Lightning and MicroUSB charger

Ideal for iPhone(tm), iPad(tm), iPod(tm) devices

Ideal for Android(tm) and Windows(tm) devices

Charge common MicroUSB devices: GPS, Cameras etc

Generous 1-metre (approx.) cable length

Available in WHITE or BLACK versions

Cable rated at 2.1AMPS (approx.)
