

PCN: V14-006-00475504-OA

Product Change Notice

Issue Date: 12 December 2014

Change Type:

Alternate Manufacturing Site.

Parts Affected:

All devices in APDS-99XX, APDS-91XX, QPDS-T9XX and their options.

Description and Extent of Change:

Setup of alternate manufacturing site in Thailand.

Reasons for Change:

Qualification of an alternative assembly and test site provides our customers additional assurance of supply. It minimizes the risk of single site dependency in case of catastrophic events.

Effect of Change on Fit, Form, Function, Quality, or Reliability:

The product specifications will remain the same. Appropriate electrical characterization and reliability qualification has been performed on representative products to insure normal parametric distribution, consistent electrical performance, and reliability.

Effective Date of Change:

Alternate manufacturing site will be implementing the change effective from date code D/C 1511 onwards. Timing of shipment of the changed part will vary by part number depending on customer demand and inventory levels.

These changes have been reviewed and approved by Avago Technologies engineers and managers per Avago Technologies procedure: Change Control and Customer Notification, A-5962-6052-80.

Please contact your Avago Technologies field sales engineer or Contact Center (<http://www.avagotech.com/contact/>) for any questions or support requirements. Please return any response as soon as possible, but not to exceed 30 days.
