Bourns® Model FB2000 Series Wide-Band Chokes

Changes to Core Material and Manufacturing Location

The core material currently used on the Bourns® [Model FB2000 Series](#) Wide-Band Chokes will soon be discontinued. An equivalent replacement material has been developed. The product's form and fit will remain the same while the product's function will have minor electrical specification changes. Mechanical specifications of the series will remain unchanged.

In addition to the core material change, the manufacturing location of this series will be transferring from Taiwan to China.

Electrical specification changes:
