PACKING MATERIAL IFX ALIGNMENT (FOR LEGACY IR PRODUCTS)

► Products affected:

See attached for affected parts.

► Detailed Change Information:

Subject: Customer will receive standardized inner box packing configuration as aligned with the IFX standard and guidelines

Reason: As part of the “One Interface to the Customer” (OITC) initiative and data migration to the Infineon system, alignment needs to be done to have a consistent standard inner box packing configuration for former IRF packages

Description: PACKING MATERIAL IFX ALIGNMENT (FOR LEGACY IR PRODUCTS)

As the result of this change

	<u>OLD</u>	<u>NEW</u>
Item	Use of inner box with IR logo	Use of inner box without the IR logo
Item	Barcode label located at the center of the top flap for tape and reel inner box	Barcode label located at the top right of the top flap for tape and reel inner box
Item	Barcode label located at the center of the top flap for tape and reel inner box	Barcode label located at the left side for tube inner box
Item	Use of ordinary sticker/tape to seal the box	Use of standard IFX QS label sticker to seal the box

► Product Identification: Could be identified by the new box configuration, barcode label location and use of the QS label sticker

► Impact of Change: Standardized inner box configuration There is no negative impact to quality or reliability as it is only a logistical change

► Attachments: 941-CUST90-C4036959-AffectedParts.xlsx

► Intended start of delivery: 15-Nov-2016
