PCN Date: 11/26/2014		Effective Date: 3/4/2015	
Title: Si7006/7/13/15/20/21/22/23 Transition from A10 to A20			
Originator: Bill Simcoe		Phone: 1-512-532-5810	Dept: APS Marketing
Customer Contact: Kathy Haggar		Phone: 512-532-5261	Dept: Sales
PCN Type:			
<input type="checkbox"/> Datasheet			
<input checked="" type="checkbox"/> Product Revision			
PCN Details			
Description of Change:			
Silicon Labs is pleased to announce the successful qualification and availability of Si7006/7/13/15/20/21/22/23-A20 products, which will replace the existing A10 versions. All of the A20 products contain higher final test coverage. In addition, a condition where the Si7006/13/20/21 I2C devices do not fully enter standby mode after a user register write has been fixed.			
After the effective date of this PCN, Silicon Labs reserves the right to deliver Si7006/7/13/15/20/21/22/23-A20 for customers ordering Si7006/7/13/15/20/21/22/23-A10.			
Reason for Change:			
The higher final test coverage reduces potential defect rates, and improves lead times resulting from better manufacturing yields. For Si7006/13/20/21 I2C devices, the current consumption following a user register write has been reduced.			
Impact on Form, Fit, Function, Quality, Reliability:			
Compared to the previous A10 versions, the Si7006/7/13/15/20/21/22/23-A20 devices are silicon metal revisions that are fully pin-compatible and software-compatible with the previous A10 versions. For Si7006/13/20/21 devices, the supply current after a user register write has been reduced from 20 μ A(typ) to the normal standby current of 0.06 μ A(typ). The higher test coverage reduces potential defect rates and improves manufacturing yields. There is no impact to reliability.

Last Date of Unchanged Product: 3/4/2015

Qualification Samples:

Samples are available now.

Specific conditions of acceptance of this change will be considered on a case by case basis if written notice is submitted within 30 days of this notice. To request further data or inquire about this notification, please contact your local Silicon Labs sales representative. A list of Silicon Labs sales representatives is available at www.silabs.com.

In some cases rejection of a change notice may impact Silicon Labs product pricing, delivery, quality, or reliability.
