April 17, 2015

To: Valued Customer

From: Littelfuse Product Management

Subject: **Holder 245 Series body marking change**

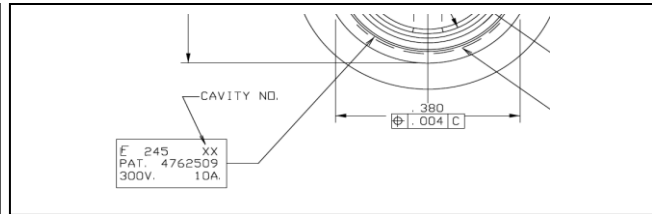

This is a 60-day PCN

Littelfuse Product Management would like to inform you that the legend of "250 V" to "300 V" from the holder's plastic body of the 245 Series will be changed in order to be compliant with our specifications.

**245 Series - Prior version**

**245 Series – New version**

Affected part numbers are:

02450001H

02450001HX010

02450001HX020

02450001X

02450002H

02450002HX010

02450002X

02450002XXL

02450002XXLN

02450002XXN

There are no changes in form, fit, function, or materials to our part. Current ratings for all other approving agencies remain unchanged:

UL/CSA

10A, 300V

Please contact your local Littelfuse Sales Office should you need further assistance.
