

Conec2 **Double-gang, Angled, Surface-mount Plastic Pattress** for use with standard UK electrical sockets and switches, as well as the Conec2 range of Modular AV Faceplates.

The **CLB-2780** is a Double-gang, Angled, Surface-mount Plastic Back Box for use with Conec2 range of Modular AV Faceplates, as well as all standard UK electrical sockets, switches and faceplates.

Manufactured in high density ABS plastic and featuring cable access knockouts.

Ideal for surface-mount/desk-mount AV faceplate connectivity, positioning your bespoke Conec2 faceplate at an accessible, ergonomic angle at the back/centre of the workspace or desk.

This **double gang angled pattress** is also compatible with most standard UK electrical socket, switch, AV and modular connectivity systems.
