ON Semiconductor reserves the right to make changes without further notice to any products herein. ON Semiconductor makes no warranty, representation or guarantee regarding the suitability of its products for any particular purpose, nor does ON Semiconductor assume any liability arising out of the application or use of any product or circuit, and specifically disclaims any and all liability, including without limitation special, consequential or incidental damages. Buyer is responsible for its products and applications using ON Semiconductor dates sheds, regardless of any support or applications information provided by ON Semiconductor. "Typical" parameters which may be provided in ON Semiconductor dates sheds and/or specifications can and do vary in different applications and actual performance may vary over time. All operating parameters, including "Typicals" must be validated for each customer application by customer's technical experts. ON Semiconductor does not convey any license under its patent rights of others. ON Semiconductor products are not designed, intended, or authorized for use on similar classification in a foreign jurisdiction or any devices intended for implantation in the human body. Should Buyer purchase or use ON Semiconductor and its officers, employees, subsidiaries, affliates, and distributors harmless against all claims, costs, damages, and expenses, and reasonable attorney fees arising out or i, directly or indirectly, any lay bed ON Semiconductor and its officers, employees, ween if such claim alleges that ON Semiconductor was negligent regarding the d

FQP27P06 P-Channel QFET[®] MOSFET - 60 V, - 27 A, 70 mΩ

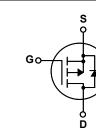

Description

This P-Channel enhancement mode power MOSFET is produced using Fairchild Semiconductor[®]'s proprietary planar stripe and DMOS technology. This advanced MOSFET technology has been especially tailored to reduce on-state resistance, and to provide superior switching performance and high avalanche energy strength. These devices are suitable for switched mode power supplies, audio amplifier, DC motor control, and variable switching power applications.

G 🖌 D

Features

- + 27 A, 60 V, $R_{DS(on)}$ = 70 m Ω (Max.) @ V_{GS} = 10 V, I_{D} = 13.5 A
- Low Gate Charge (Typ. 33 nC)
- Low Crss (Typ. 120 pF)
- 100% Avalanche Tested
- 175°C Maximum Junction Temperature Rating

Absolute Maximum Ratings T_c = 25°C unless otherwise noted

Symbol	Parameter			FQP27P06	Unit
V _{DSS}	Drain-Source V	oltage		-60	V
I _D	Drain Current	- Continuous (T _C = 25	°C)	-27	A
		- Continuous (T _C = 10	O°C)	-19.1	А
I _{DM}	Drain Current	- Pulsed	(Note 1)	-108	A
V _{GSS}	Gate-Source Voltage			± 25	V
E _{AS}	Single Pulsed Avalanche Energy		(Note 2)	560	mJ
I _{AR}	Avalanche Current		(Note 1)	-27	A
E _{AR}	Repetitive Avalanche Energy		(Note 1)	12	mJ
dv/dt	Peak Diode Recovery dv/dt		(Note 3)	-7.0	V/ns
PD	Power Dissipation (T _C = 25°C)			120	W
	- Derate above 25°C			0.8	W/°C
T _J , T _{STG}	Operating and Storage Temperature Range			-55 to +175	°C
TL	Maximum lead temperature for soldering purposes, 1/8" from case for 5 seconds			300	°C
'L				300	U

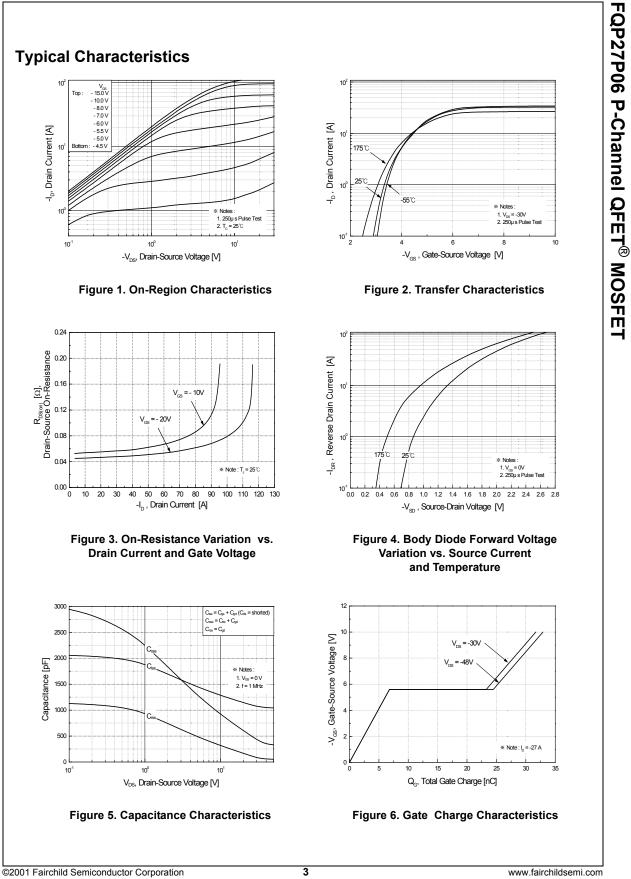

TO-220

Thermal Characteristics

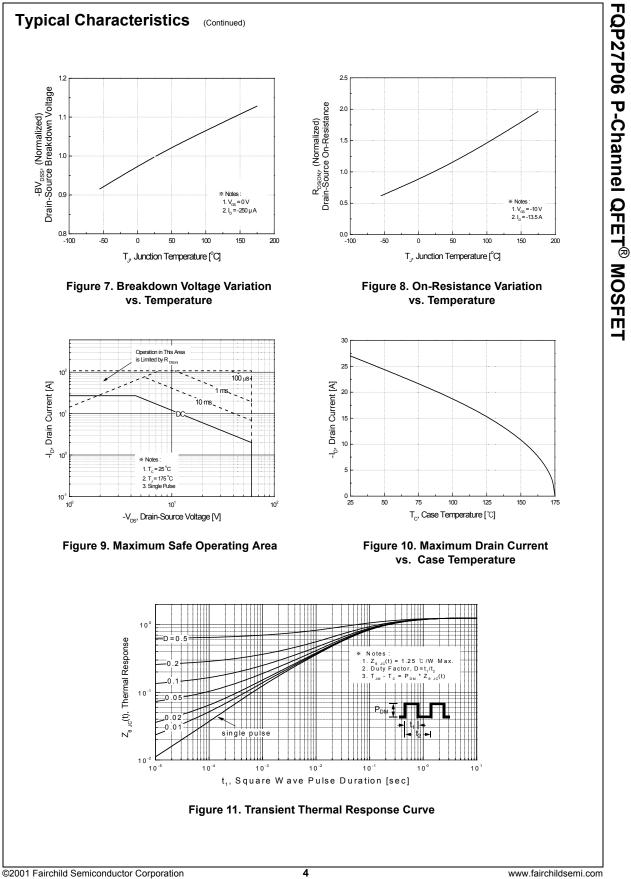

Symbol	Parameter	FQP27P06	Unit °C/W

FAIRCHILD SEMICONDUCTOR RESERVES THE RIGHT TO MAKE CHANGES WITHOUT FURTHER NOTICE TO ANY PRODUCTS HEREIN TO IMPROVE RELIABILITY, FUNCTION, OR DESIGN. FAIRCHILD DOES NOT ASSUME ANY LIABILITY ARISING OUT OF THE APPLICATION OR USE OF ANY PRODUCT OR CIRCUIT DESCRIBED HEREIN; NEITHER DOES IT CONVEY ANY LICENSE UNDER ITS PATENT RIGHTS, NOR THE RIGHTS OF OTHERS. THESE SPECIFICATIONS DO NOT EXPAND THE TERMS OF FAIRCHILD'S WORLDWIDE TERMS AND CONDITIONS, SPECIFICALLY THE WARRANTY THEREIN, WHICH COVERS THESE PRODUCTS.

LIFE SUPPORT POLICY FAIRCHILD'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS WITHOUT THE EXPRESS WRITTEN APPROVAL OF FAIRCHILD SEMICONDUCTOR CORPORATION.

As used here in:

Life support devices or systems are devices or systems which, (a) are 1 intended for surgical implant into the body or (b) support or sustain life, and (c) whose failure to perform when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in a significant injury of the user.

2 A critical component in any component of a life support, device, or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness

ANTI-COUNTERFEITING POLICY

Fairchild Semiconductor Corporation's Anti-Counterfeiting Policy. Fairchild's Anti-Counterfeiting Policy is also stated on our external website, www.Fairchildsemi.com, under Sales Support.

Counterfeiting of semiconductor parts is a growing problem in the industry. All manufactures of semiconductor products are experiencing counterfeiting of their parts. Customers who inadvertently purchase counterfeit parts experience many problems such as loss of brand reputation, substandard performance, failed application, and increased cost of production and manufacturing delays. Fairchild is taking strong measures to protect ourselves and our customers from the proliferation of counterfeit parts. Fairchild strongly encourages customers to purchase Fairchild parts either directly from Fairchild or from Authorized Fairchild Distributors who are listed by country on our web page cited above. Products customers buy either from Fairchild directly or from Authorized Fairchild Distributors are genuine parts, have full traceability, meet Fairchild's quality standards for handing and storage and provide access to Fairchild's full range of up-to-date technical and product information. Fairchild and our Authorized Distributors will stand behind all warranties and will appropriately address and warranty issues that may arise. Fairchild will not provide any warranty coverage or other assistance for parts bought from Unauthorized Sources. Fairchild is committed to combat this global problem and encourage our customers to do their part in stopping this practice by buying direct or from authorized distributors.

PRODUCT STATUS DEFINITIONS Definition of Terms

Product Status	Definition		
Formative / In Design	Datasheet contains the design specifications for product development. Specifications may change in any manner without notice.		
First Production	Datasheet contains preliminary data; supplementary data will be published at a later date. Fairchild Semiconductor reserves the right to make changes at any time without notice to improve design.		
Full Production	Datasheet contains final specifications. Fairchild Semiconductor reserves the right to make changes at any time without notice to improve the design.		
Not In Production	Datasheet contains specifications on a product that is discontinued by Fairchild Semiconductor. The datasheet is for reference information only.
