

Product Change Notice for EVAL_PAN1720BR and EVAL_PAN1721BR

PCN.PG13315151219.02.13.2015

02/13/15

About this Notice:	Evaluation Kit hardware Revision
Effective Date:	Immediately
Change Details:	EVAL_PAN1720BR and EVAL_PAN1721BR evaluation kits using BlueRadios S2 and S3 modules, respectively, have been replaced with Panasonic modules. The new kits are based on Panasonic's standard ETU format, consisting of two USB sticks, packaged in a labeled, white cardboard box. The new kits will be delineated using the hardware version number v2.0. The kits are interchangeable, 100% firmware compatible and functionally similar. The PAN1720 Design Guide includes firmware instructions, a reference schematic and PCB layout. PC based evaluation-ware resides on the PAN1720 landing page.
Affected Parts:	EVAL_PAN1720BR and EVAL_PAN1721BR
Datasheet(s):	Refer to the PAN1720 Design Guide for details
Notes:	The new kits will be delineated in the description using the hardware version number v2.0. All kits shipped after January 1, 2015 will be version 2.0. New version number v2.0 will remain the same as the EVAL_PAN1720BR and EVAL_PAN1721BR evaluation kits using BlueRadios S2 and S3 modules.
