TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
USB 2.0 connector

Description of Changes
change the material for USB 2.0 connector, from phosphor bronze to stainless steel This change is considered by TE Connectivity as a ; . Location of change, see

Reason for Changes:
Product Improvement. the lead time was so long for phosphor bronze, for the supply chain problems, we need to look for a new material ,replace the current material , the mechanical performance of stainless steel was better , and the lead time was acceptable,we had did some related test for the new material , it can pass the specification
