Car Charger
USB Cable
Magnetic Cradle

CD (for GPS version only)
Quick Start Guide
Warranty Card

Device overview

1	Infrared light		
2	Lens	8	Speaker
3	Power button/light button	10	Mini USB port
4	Up button	11	SD card slot
5	Down button	12	Microphone button/SOS
6	Menu button/Exit	13	Photo button
7	Microphone	14	Record/Playback/OK button

2. Getting started

Insert a microSD card

Before starting video recording, please insert a microSD card (not included) into the slot until it locks in place.
> The device will automatically recognize it as default storage and all the data will be saved on this card.

Install the Magnetic Cradle
Charge the battery

Before using the device for the first time, please fully charge the Li-ion battery. The battery will be completely charged in 2-3 hours.
- Using the car charger: charge the device through cigarette lighter. The device will start charging after the car engine is turned on. *The GPS receiver is built in the magnetic cradle.* Please connect the car charger to the micro USB port on the cradle.
- Using USB cable: connect the device to AC 5V adapter or the USB port of a computer/ laptop.

3. Settings

Before recording, you can set up the device according to your requirements.
- In video/picture preview mode, press [MENU] to enter video/picture settings, press it again to go to general settings, press it third time to exit.
- In setting list, use [▲]/[▼] to navigate the menu, press [☺◁/▶] to confirm the selection, and [MENU] to exit.

Video settings

- **Resolution**: Select the resolution of recorded video: 1920x1080p 25fps, 1440x1080i 30fps, 1280x720p 50fps, 1280x720p 30fps.
- **Loop recording**: Set the video duration (1, 2, 3, 5, 10 minutes or off) for loop recording. When the microSD card is full, the device will delete the oldest unlocked video file automatically.
- **Exposure**: Set exposure value to determine how much light the camera's sensor receives. For lowlight situations, use a higher exposure.
- **Motion detection**: Turn on or off motion detection. If there is any motion detected while the car engine is stopped, your car DVR will start recording automatically.
- **Record audio**: Set to record sound or not.
- **Date stamp**: Add date stamp onto videos.
- *GPS stamp: Add information stamp to video/photos*
- *Speed stamp: choose the speed measurement km/h or MPH*
- **G sensor:** Select the sensitivity of the G-sensor.

Picture settings

- **Capture mode**: Select the capture mode from Single/ 2S Timer/5S Timer/10S Timer.
- **Resolution**: Select the picture image size from 12M / 4032x3024, 10M 3648X2736, 8M / 3264x2448, 5M / 2592x1944, 3M / 2048x1536, 2MHD / 1920X1080, VGA / 640x480, 1.3M / 1280x960.
- **Sequence**: Select to turn the burst on or off. In burst mode, several photos are captured in quick succession. This is used mainly when the subject is in successive motion, such as sports.
- **Quality**: Select quality from Fine / Normal / Economy.
- **Sharpness**: Adjust the sharpness.
- **White balance**: Select an appropriate white balance, so images have a true-to-life color range. It is for specific lighting situations.
- **Color**: Select color from normal / black & white / sepia.
- **ISO**: This controls camera light sensitivity. It is measured in filmcamera equivalents. Low values are for stationary or brightly-lit objects. Higher values are for fast-moving or poorly-lit objects.
- **Exposure**: Set exposure value to determine how much light the camera's sensor receives. For lowlight situations, use a higher exposure.
- **Date stamp**: Add date and time stamp onto photos.

General settings

In preview mode, double press [MENU] twice to enter general settings.
- *Time Zone: Select the local GMT (Greenwich Mean Time)*
- **Date/Time**: Set date and time on device.
- **Auto power off**: Set automatic power off when the device is not in use.
- **Beep sound**: Turn on or off the sound when pressing buttons.
- **Language**: Choose your language.
- **TV mode**: Select from PAL and NTSC.

- **Frequency**: For a given luminance, the frequency of light fluctuation that evokes a sensation of flicker. Set a right flickering frequency to avoid horizontal stripe interference.
- **LCD off**: Set automatic LCD off when the device is not in use, press any button to wake up.
- **Format**: Format the memory card.

⚠️ Formatting will erase all your stored data. Back up your data before proceeding.

- **Default setting**: Restore to default setting.
