The Only Notebook Computer Adapter You'll Ever Need

Lost or need an OEM replacement AC adapter for your Notebook or Laptop Computer?

The new LMS Power **PWR-AC-AC65WU** is a feature-rich, universal AC power adapter for the world's leading computer vendors including Asus(tm), Acer(tm), Dell(tm), HP(tm) and many more.

Now you don't need to worry if you have the right AC power adapter for your computer. Supplied with around 9* replaceable power input tips, you simply select and fit the tip which is suited to your Notebook computer - its that simple!

And unlike most OEM AC power supplies, the LMS Power PWR-AC-AC65WU will help protect your hardware investment. With integral over current and over voltage protection, means that if your electrical supply is less than stable, then your hardware is protected, automatically.

Whats more, its universal, meaning it works on a range of voltages automatically, ranging from 100 -240V so its ideal for almost any country.

specifications:

Universal 65-Watt Notebook/Laptop Power Supply

Bundled, replaceable power input tips (9)

Ideal for ASUS(tm), Acer(tm), Dell(tm), Lenovo(tm)

Sony(tm), HP(tm) and more...*

Automatic Power Switching from 100 - 240VAC

Integral Over Current, Over Voltage protection

Compact Power Supply - Low heat design

Built-in RF choke to reduce RFI induced corruption

Ideal as direct Notebook/Laptop OEM PSU replacement

Form factor normally smaller than original power supply

* If in doubt
check with hardware vendor
