Part #: 8041

Description:

MANTUS™ Tight Access Tool

Slogan:

The Ultimate Grab Tool!

Short Description:

High-quality surgical steel pliers with serrated interlocking hands for gripping and biting with cleaning capabilities.

Descriptive Paragraph:

The MANTUS™ Tight Access Tool is a versatile tool, featuring surgical stainless steel with serrated interlocking hands at the end of a 6" reach. It bites and grabs wires, gaskets, tubes, tools, terminals, etc. The ends double as an abrasive surface which can be used to scrape corrosion from a variety of surfaces including spade terminals, relays, fuses and more.

Features/Benefits:

- Interlocking serrated gripping tips
- 6" length
- High-quality surgical stainless steel
- Low profile reach
- Bites and grabs fuses, wires, gaskets, tubes, tools, terminals, etc.
- Scrape corrosion from spade terminals, relays, fuses, etc.
