MFR	MPN	Description
NEWLINK	NLHUB-24FE	SWITCH, 24 PORT, FAST ETHERNET

This is a multiport switch and is the perfect choice to create a 10/100 network. It provides you with a high-performance, seamless, low-cost and easy-to-use 10/100 network. All twenty four ports support auto-negotiation and auto-MDI/MDIX eliminating the need for a cross over cables.
Connection speeds are automatically detected.

Features:

- Complies with IEEE 802.3, IEEE 802.3u and IEEE 802.3ab standards
- Twenty Four Auto-Negotiation ports provide smart switching between 10Mbps/100Mbps hardware
- Supports Auto-MDI/MDIX, eliminating the need for crossover cables
- Supports IEEE 802.3x flow control for Full Duplex mode and backpressure for Half Duplex mode
- Supports MAC address auto-learning and auto-aging
- Non-blocking switching architecture enables full wire-speed packets forwarding and filtering
- Plug and Play design simplifies installation
- LED indicators for monitoring power, link and activity
