

3M™ 450 and 440 Overboots

The 3M™ 450 and 440 Overboots are accessories within the 3M range of disposable protective clothing.

Featuring a white, laminated, low-linting fabric which is also used on the front of the 3M™ 4535 Protective Coverall, the 3M™ 450 and 440 Overboots are designed to help protect the wearer's footwear from non-hazardous liquid splashes and dusts and may also help reduce contamination of the working environment.

Both overboots feature elastication at the calf and ties to ensure a good fit. The base of the 3M™ 440 Overboot is made from the same laminated fabric as the top of the boot. The 3M™ 450 Overboots features a PVC sole which is designed to reduce the risk of slipping during wear.

Key Features

- 3M™ 450 only features a PVC sole
- Boots feature ties made from the same laminated fabric as the Overboot
- Elastication at the top of the boot
- Low-linting material
- Made from the same fabric as used on the front of the 3M™ 4535 Protective Coverall which has an Antistatic treatment

Applications

- Catering
- Electronics Manufacturing
- Laboratories
- Cleanrooms

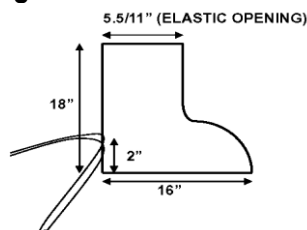

This product is sold as an accessory and is not certified under the Personal Protective Equipment (PPE) Directive. A risk assessment should be carried out by a trained safety professional to ensure that appropriate PPE and accessories are selected and worn correctly. For more information, please contact 3M.
