

## 160mm Fan Filter Media, 60ppi SC162-M60/5

GardTecs 60ppi (pores per inch) fan filter media for 160mm cabinet cooling fans is the ideal solution for stopping harmful dust buildup. When dust accumulates, your cabinet fan works less efficiently and can result in damages to you cabinet components. This fan filter media is constructed out of polyurethane fibers preventing dust accumulation and heat damage. Receive a GardTec discount when you purchase this five-pack of fan filter media in bulk! View our [cabinet cooling fan kits](#) for more home cabinet cooling!

Media: Polyurethane Foam UL94HF-1
