

## 160mm Fan Filter Media, 45ppi SC162-M45/5

Keep your 160mm cabinet cooling fan free of dust buildup with this 45ppi (pores per inch) fan filter media. Dust accumulation can cause your cabinet fan to fail, resulting in overheating damages. Our fan filter media is constructed out of high quality polyurethane fibers making it resistant to heat and dust. Ensure your cabinet components are properly protected with this five-pack of fan filter media. Purchase fan filter media in bulk to receive a discounted price from GardTec! Browse our [cabinet cooling fan kits](#) for more high quality fan filter media.
