The cost-effective all-in-one UK charging solution

Looking for a direct replacement to your existing Android(tm) or other MicroUSB powered devices with the assurance of an integral charge cable that cannot be lost?

The LMS Data **C-USB-POWER-2A-MI** is a low cost but effective all-in-one charger, featuring an integral 1.5m (approx) MicroUSB charge cable. Ideal for popular Android(tm) devices, its also ideal for other compatible digital devices as as GPS, Dash Cams, Charging stations and some wearable technologies.

With an improved charge rate of 2 Amps means that it can charge new, higher capacity batteries in reduced time and of course power more demanding devices.
