# EF45-30

#### **General Information** Extended Product Type: EF45-30 Product ID: 1SAX221001R1101 EAN: 4013614403965 Catalog Description: EF45-30 Electronic Overload Relay The EF45-30 is an self-supplied electronic overload relay, which means no extra external Long Description: supply is needed. It offers reliable and fast protection for motors in the event of overload or phase failure. Easy to use like a thermal overload relay and compatible with standard motor applications, the electronic overload relay is convincing, above all, due to its wide setting range, high accuracy, high operational temperature range and the possibility to select a trip class (10E, 20E, 30E). Further features are the temperature compensation, trip contact (NC), signal contact (NO), automatic- or manual reset selectable, trip-free mechanism, STOP- and Test function and a trip indication. The overload relays are connected directly to the contactors. Single mounting kits are available as accessory.
