Comfortable, accurate optical tracking

Wireless Optical Mouse Technology That Goes The Distance

Looking for a low cost high quality wireless optical mouse for both right and left handed users?

The new **CP-M161W-B-BL** offers just that. High resolution optical tracking is ideal for both gaming as well as general business applications, for Windows(tm), Mac(tm), Linux(tm) and a whole lot more besides including project applications, such as the Raspberry PI(tm) computer.

Featuring a new developed, integral wireless 2.4Ghz transmitter that automatically frequency hops' to a clearer frequency, even in a wirelessly cluttered environment. Bundled with a nano-type 2.4Ghz driver-free USB adapter that can be installed as a permanent fixture in any vacant USB port.

Ideal for almost any operating system such as Windows10(tm), Mac OS X(tm), Android(tm) and Linux(tm) means the **CP-M161W-B-BL** its ideal for almost any scenario.

Advanced features:

Wireless, 2.4Ghz driverless installation

Supplied with Nano-style 2.4Ghz USB adapter*

Optical tracking, DPI selectable 600/1200/1600

Superior comfort design - left or right handed operation

3-Button and accurate central scroll wheel

Ideal for Windows(tm), Mac(tm), Android(tm) and more

Ideal for computer projects inc. Raspberry(tm)PI systems

Quality retail packaging - choice of mouse colours**

* Single USB port required
