RE: LFPCN41264

TO: Our Valued Customers

From: Littelfuse Product Management Team

Subject: LFPCN41264- Axial Package 2nd Assembly Manufacturing Site Approval

This is a notification of 2nd assembly facility approval for some Littelfuse semiconductor axial-packaged products including TP6KE, P6KE,SA,SAC and TP1.5KE series. Please refer to attachment for affected parts number list.

Qualification efforts have been completed and all affected products have been fully qualified in accordance with established performance and reliability criteria. Both assembly sites use current Wuxi in-house dies.

We will start implementing this change and start the new shipment from this new facility from Sep.10th 2017. And you can expect to start receiving products from that point moving forward. This is a rolling change and you can expect products from both assembly manufacturing sites during the implementation period.

Full qualification data and/or samples will be available upon request.
Form, fit, function and shape changes: Comply to JEDEC standard and datasheet

Part number changes: None

Effective date: Sep.10th 2017

Replacement products: N/A

Last time buy and Sample request: Jun.10th 2017

This notification is for your information and acknowledgement. If you have any other questions or concerns, please contact please contact Littelfuse@ local Sales representative or Meng Wang, Product Manager for General purpose TVS P6KE/SA/SAC, and contact Charlie Cai for automotive TVS TP6KE/TP1.5KE.

We highly value your business and look forward to assisting you whenever possible.

Best Regards,

Meng Wang
