

Product Change Notification

INDUCTIVE COMPONENTS

March, 2017

Bourns Part Numbers 5218-RC, 5219-RC and 5220-RC Hash Chokes ***Change to Lead Length***

Bourns is making a change to the lead length for the part numbers [5218-RC](#), [5219-RC](#) and [5220-RC](#), to better enhance the manufacturing process. The lead length will be changed from 31.75 mm (min.) to 29.5 mm (min.). We believe the shorter lead length will not impact the vast majority of applications, but Bourns recommends that you verify the effect of the change in your specific application. Should you require the existing lead length, please contact Bourns for special arrangements.

The form and fit of the component will be changing. However, there will be no change to the function, the quality or the reliability of the choke.

Current Lead Length	New Lead Length
31.75 mm (min.)	29.5 mm (min.)

Implementation dates are as follows:

*Date that manufacturing of existing products will cease: **June 11, 2017***

*Date that deliveries of modified products will begin: **June 12, 2017***

*First date code using the above changes: **1724***

Product samples will be available upon request.

If you have any questions or need additional information, please feel free to contact [Customer Service/Inside Sales](#).
