

Fordata Reflective LCD – PRODUCT CHANGE NOTIFICATION – March 2017

Products Affected

Fordata Chip On Board (COB) LCD module type **FDCC0802C-RNNYBH-16LE**
Farnell Order Code **1847923**

Change Rationale

The printed circuit board has been reformatted to accommodate all variations of LCD mode with the particular "Series". The PCB will appear different to the previous offering.

The "bottom" mounting lugs were previously formed as part of the LCD bezel. For better strength and stability, these mounting lugs are now formed from the base printed circuit board (PCB)

What has changed

The PCB will change in appearance, and the bottom mounting lug thickness increases to the PCB thickness of 1.6mm

ALL OTHER FIT/FORM/FUNCTION DETAIL REMAINS UNCHANGED.

New Part number will be **FC0802E00-RNNYBH-16LE**
Farnell Order Code **2674124**

What considerations are required

Review mechanical spacing required between module fixing lugs and any mother board/front panel.

Effective Date of Change

All products manufactured from 10th March 2017 will be of the new version
