Legacy LAN & WAN

Add Quality Category 6 Patching To Your Network

Looking for an economical but effective unshielded (UTP) Category 6 patch panel solution for your network?

The new LMS Data **PPAN-24-C6-BB** offers performance Category 6 performance for your current and next generation networking applications, for gigabit ethernet and advanced telco applications for example.

Industry standard, dual-personality IDC punchdown for Krone(tm) and 110 tooling, clear colour coding for true TIA/EIA compliance and long life RJ45 UTP ports.

Part of the LMS Data 25-year warranty system*, the PPAN-24-C6-BB is your ideal patching solution for warranted and un-warranted current and next generation networking, telco and server applications - at a competitive price point.

specifications:

24-Port, 19-inch wide category 6 patch panel

Unshielded (UTP) RJ45 Ports, numbered

1U Form factor with rear management bar

Exceeds current Category 6 performance

TIA-EIA-568A/B2.1 with Krone(tm) & 110 IDC

Phosphor bronze and Nickel IDC connectors

Robust UTP RJ45 ports for extended lifespan

Supports 22 to 26 AWG conductor diameters

Additional labelling area for bespoke identification

* LMS Data 25-year warranty option as a cost-free option
