Method of Identifying Change	Factory order number		

## Before Change

- Increasing the ML-XT seal wire insulation range

## After Change

### Overview

- We have increased the capability of the ML-XT seal wire insulation range. Moving the small hole seal capability of the product from 1.4-2.7mm to 1.35-3.05mm with no product change. On the large seal range we are going from 2.7-3.6mm to 2.23-3.68mm on this range all seals will remain the same color except the 2 circuit large seal and for this we needed a new seal. This new 2ckt large seal will be a green seal and will identify the running change of this product to enhance the wire insulation range.

- Product Impact
  - Seal hole size changing only on the 2cct Large seal part
- Part Number Impact
  - 93445 & 93444 ML-XT series connectors
- Samples available upon request
