

Portable yet powerful, the Mavic Pro is your personal drone, ready to go with you everywhere.

- The DJI Mavic Pro folds down as small as a bottle of water, making it small enough to bring with you everywhere
- New OcuSync transmission system offers up to 4.3 miles (7km) of transmission range.
- Fly at up to 40mph (64kmh) or for as long as 27-minutes.
- True 4K, fully stabilized ensures smooth footage
- ActiveTrack, TapFly and other smart features make professional looking video effortless.

The DJI Mavic Pro is a small yet powerful drone that turns the sky into your creative canvas easily and without worry, helping you make every moment an aerial moment. Its compact size hides a high degree of complexity that makes it one of DJI's most sophisticated flying cameras ever. 24 high-performance computing cores, an all-new transmission system with a 4.3mi (7km) \*range, 5 vision sensors, and a 4K camera stabilized by a 3-axis mechanical gimbal, are at your command with just a push of your thumb or a tap of your finger. \*Unobstructed, free of interference, when FCC compliant.
