Compliant

## Description

The copper foil shielding sleeving is woven with copper foil monofilament, it is used in different electrical and industrial fields, where EMI shielding, excellent protection and lightweight properties are required. It is lighter and more flexible than tinned copper braided sleeving, so it can be a perfect combination of economy and durability.

## Application

It is widely used in communication system, electronic medical equipment, military equipment as well.

## Technical Data

Material	: Copper Filament
Operating Temperature	: -40°C to +150°C
Standard Colour	: Tinned Colour
Other Features	: Resists gasoline and engine chemicals
Cutting Tool	: Scissors

## Part Number Table

Description	Nominal Size	Expanded Range		Packing	Part Number
		Min.	Max.		
Copper Foil Shielding	4mm	3mm	7mm	300m	PP001410
