EXAMPLE APPLICATIONS

Optical Laboratories
Chemical Laboratories
Medical Rooms
Dental Clinics
Electrical Component Makers
Jewellery Makers
Watch / Metal Part Makers
Shooting Clubs
Special Education Institutes
Golf Clubs
Mobile Phone Service Shops
Printing Shops
Automotive Repair Shops

SPECIFICATION

Model Name:
9050 TOUCH

Timer Settings:
1 to 30 minute full range timer

Tank Size:
7.5L (MAX. fluid level 6.0L)

Ultrasonic Frequency:
35,000Hz

Power Consumption:
410W

Power Supply:
(AC 220~240V 50/60Hz)

Mains Fuse:
3A

Unit Dimensions (LxWxH):
541x337x277mm

Weight (Net):
9.8kg (21.8lbs)

Weight (Gross):
11.1kg (24.7lbs)

9050 TOUCH

PROFESSIONAL ULTRASONIC CLEANER

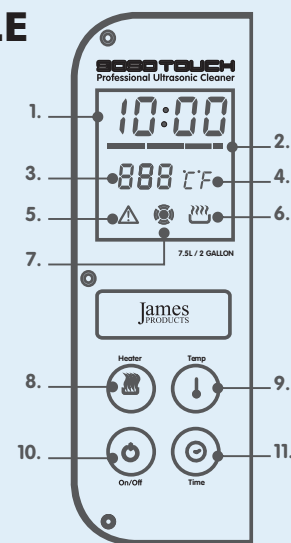

ULTRASONIC CLEANING MADE SIMPLE for professional use

- Vast 7.5L stainless steel tank
- 3 ultrasonic transducers (110W)
- 3 ceramic heaters (40° - 60°C)
- 3 cooling fans
- Touch screen control panel
- Full CE and RoHS approval
- Drainage valve
- Engineering grade plastic
- Solid structural design
- Quiet operation

Ultrasonic cleaners function by producing sound waves that are transmitted into the tank and cleaning solution. These waves create millions of microscopic bubbles, which collapse or 'implode', releasing large amounts of energy, which scrub the surface clean. This process is called 'Cavitation'. These tiny bubbles create incredible cleaning results not only to the surface, but by penetrating the finer detail and recesses in surgical instruments and small items to ensure a professional clean prior to disinfection.

The **9050 TOUCH** professional cleaner has three ultrasonic transducers to enable uniform distribution of ultrasonic waves and increases power output by 40%. The touch screen control panel of the **9050 TOUCH** has four simple to use keys, six timer settings and three temperature settings. The **9050 TOUCH** has a large stainless steel tank capable of holding an item as long as 37cm in length.

There are a range of optional accessories available to suit your every need. The **9050 TOUCH** has an easy to use drainage valve, making it simple to empty the dirty water from the tank.

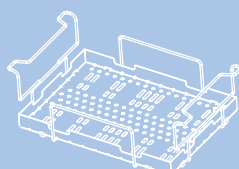

1. Working Time Display
2. Multistage Thermometer
3. Set Temperature Display
4. °C or °F Indicator
5. Overheat Protection Light
6. Heater Status
7. Normal Cleaning Status
8. Heater Button
9. Temperature Set Button
10. Function Button
11. Timer Quick Set Button

Included Item

Draining Hose

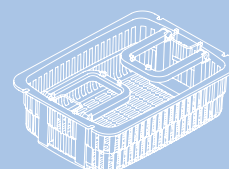

Stainless Steel
Rack & Tray

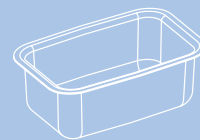

Optional Accessories

Double Glass Beaker
& Holder

Suspendible Basket

In-direct Stainless
Steel Tank
