

Copper Foil EMI Shielding Woven Sleeving

RoHS
Compliant

Description

This EMI shielding sleeving is woven from a copper foil and PET monofilament. Used in different electrical and industrial fields where EMI shielding, excellent protection and lightweight properties are required. It is lighter and more flexible than tinned copper braided sleeving, so it can be a perfect combination for economy and durability.

Applications

It is widely used in communication systems, electronic medical equipment and military equipment.

Technical Data

Material : Copper Foil and PET monofilament
 Operating Temperature : -40°C to +150°C
 Colour : Tin
 Other Features : Resists gasoline and engine chemicals
 Cutting Tool : Scissors

Part Number Table

Description	Nominal Size	Expanded Range		Spool Length	Part Number
		Min.	Max.
