

MCM CUSTOM AUDIO

Adaptiplate™ Customizable Wall Plate System

The MCM Custom Audio Adaptiplate™ Wall Plate System allows installers to configure wall plates to meet virtually any residential audio application. Configure single, or multi-gang wall plates with exactly the connectors needed. Hex inserts accept "F" connectors, and RCA connectors with a variety of insert colors to suite a wide range of audio and video applications. Keystone style inserts are compatible with both Leviton and Tyton Hellermann wall plates, allowing easy integration with existing Decora style devices.

Retail prices are shown on this sheet. Quantity discounts, VIP and Dealer pricing applies. Contact your MCM sales representative or log onto www.mcmelectronics.com for details.

MCM CUSTOM AUDIO

Adaptiplate™ Decora Inserts

Multiple configurations allow you to select from one to eight connectors in a single gang plate size. Use alone or combine with others to provide exactly the plate configuration needed. Available in white or ivory these inserts are compatible with standard decora wall plate covers. Accepts all Adaptiplate™ A/V hex connectors.

MCM CUSTOM AUDIO

Adaptiplate™ A/V Hex Connector Inserts

Gold plate hex inserts are intended for use with all Adaptiplate™ decora wall plates. When used in conjunction with #50-10780 and 50-10781 hex inserts, they may also be used in keystone plates. "F" style insert is perfect for CATV, antenna or satellite use.

Extra long barrel length allows easy connection on rear side. RCA style connectors are female on both sides, and are perfectly acceptable for use with digital and analog audio signals, as well as composite and component video. All connectors sold individually.

Order #	Type	Insert Color
50-10800	"F"	-
50-10820	RCA	Red
50-10821	RCA	Green
50-10822	RCA	Blue
50-10823	RCA	Yellow
50-10824	RCA	Orange
50-10825	RCA	White
50-10826	RCA	Black

MCM CUSTOM AUDIO

Adaptiplate™ A/V Hex Connector Inserts

Specially designed RCA to "F" adaptor inserts greatly ease installation of specific A/V cables in a distributed system. Rear "F" connection allows easy incorporation of RG-6 or RG-59 cable for A/V runs. These cable types are perfectly suitable for composite video, Y/Pr/Pb component video, line level and digital audio, and typically provide improved performance over pre-terminated RCA style cables. All connectors sold individually.

Order #	Insert Color
50-10830	Red
50-10831	Green
50-10832	Blue
50-10833	Yellow
50-10834	Orange
50-10835	White
50-10836	Black
