

SUPER GLUE GLASS

STEP-BY-STEP

1. Ensure surfaces to be joined are clean, completely dry and close fitting.
2. Twist cap clockwise until it locks, then unscrew in an anti-clockwise direction to open.
3. Carefully squeeze a small drop onto one surface. Press the surfaces together and hold until set.
4. Replace the cap immediately and store upright in a cool dry place

Instant, crystal clear bonds that are water and dishwasher-resistant. Formulated to work on all types of glass.

Recommended on

Glass, Crystal, Tinted Glass, Glass Works, Opaque Glass, Blown Glass.
