Enterprise level power distribution for data centres and more

Looking for high-performance power distribution for your heavily loaded systems?

The newly developed LMS Data 32A heavy-duty horizontal PDU is ideal for high-loading device requirements including server, network and other industrial-type equipment functions such as broadcast and HVAC applications.

Combining a fully certified commando type 32A plug input, combined with a compatible heavy load power flex means you can be assured this LMS Data PDU can work without problems, 24/7.

Ideal for horizontal 19-inch data and server cabinet placement, the PDU takes up minimal space but provides an impressive power delivery ratio.

Robust in design, with an integral illuminated power input status, the LMS Data PDU is designed to deliver maximum electrical power today and tomorrow.

specifications:

Horizontal, high-performance Power Distribution Unit (PDU)

Heavy-load 32A Commando style 3-pin plug

Compatible, heavy-load power cable

6x UK style output power sockets with surge protection

Robust, black aluminium design for industrial use

Illuminated power input light for assured power status

Maximum power rating - 4000W

2.0 metre (approx.) power cordage

Ideal for data, telecom, broadcast and HVAC applications
