

Maxlife 369 tripod flashlight

STANLEY

Unique tripod design for hands free operation, perfect for a project or for use in an emergency situation. Multi purpose head allows you to direct light where you need it most. The torch features six bright white solid state LED bulbs for extended run time capability and long life. A low power indicator light with electronic circuitry helps the user know when the batteries need to be replaced, light indicates when power remaining is estimated at 3% or 6-8 hours of useful light. A four position switch controls the

amount of light generated High/ Medium/ Emergency and Off. The flash light allows you to pre-select the amount of run time required. Uses 3, 6, or 9 AA batteries (Not supplied) depending on usage requirements.
